## ABOUT ME

Pragraming has taken over me lately, i am highly motiveted to deliver my work. I am sure a will bring a lot to a developers team. I am a very open and friendly person who fits well into the team. When i start doing something i always do it for 100%. I am also big fun of sports, especially basketball.

## EXPERIENCE

### Junior Java Developer

**2023-02 - now**
*JFeeSoft, Remote*

Working in the Team of 10 members in the Agile framework, responsible for delivery of the R&D cloud-based application. Working with microservice architecture based on REST back-end services. Developing with technologies as following: REST Template, Docker, CircleCI, PostgreSQL, lombok, log4j, SpringBoot Core, SpringBoot Data JPA, AOP, JWT, Keykloack, JUnit/Karate, Monitorig with grafana and prometheus actuator, Tomcat. Handling on-boarding process of the new joiners and sharing expertise to other Team Members by organizing and leading KT/brainstorming sessions. Assisting in tasks refinement by adding priority, estimating complexity and assigning labels. Making code review, functional and API documentation. Works great in Git/GitHub environment

## EDUCATION

### Politechnika Wrocławska

**Telekomunikacja**
**2021-10 - 2022-07**

### Liceum Ogólnokształcące nr II we Wrocławiu
